# Mike Dawson

## *A New Day for Monterey*

The citizens of Monterey won a great victory when they signed the petitions to stop the unnecessary and costly expansion of City Hall.

Yet, the politicians inside City Hall haven't given up. Despite public opposition, they may revive the project in as little as a year's time.

The best way Monterey residents can stop City Hall expansion once and for all ( and save themselves \$14 million ) is to elect Mike Dawson Mayor on November 7. Mike led the grassroots campaign "Let the People Decide" which forced the City Council to back down and rescind plans to expand.

Mike Dawson is our insurance policy to ensure that City Hall expansion is gone forever. Mike will find alternatives to provide our city employees with the work space they need, alternatives that won't add to downtown traffic congestion or alter the historic charm of downtown Monterey.
